## NO PRICE GLORY!

Something for nothing? Well, not quite but almost. The Ohio State Engineer is offering to the students of this university a chance to show their skill and dexterity with a camera; a chance to cover themselves with glory by glorifying our magazine cover with an interesting picture.

More specifically, all students at Ohio State University, graduates, freshmen, or what not, are eligible to submit a photograph or photographs to the Art and Photography Editor, Mr. Robert R. Allen, in care of the Ohio State Engineer, Engineering Experiment Station. From these photographs, Mr. Allen in conjunction with the Editor and Associate Editor, will choose the most striking or suitable photograph to be used on the cover of the magazine.

In all cases, the decision of this group will be final, and the winner will be rewarded in two ways. First, he will receive official recognition for his winning contribution by a short write up in the Engineer. Second, he will be given five copies of that issue to distribute as he may desire.

Unusual facilities are available to make a careful study of all desirable photographs submitted so that the winning picture will be chosen on its superior rating of subject, quality, and effectiveness. There are no limitations as to subjects or style and the picture may be of any standard size such as  $2\frac{1}{4} \times 3\frac{1}{4}$  or  $2\frac{1}{4} \times 4\frac{1}{4}$ , etc., or 35 mm. providing an enlargement of at least  $2\frac{1}{4}$  on the short side is provided, but negatives must be submitted as well as the print.

However, the subject matter of the picture should be such as to adapt itself to cropping for a square format. Every effort will be made to protect the negative from any possible damage. Include your name, address, telephone number as well as a self-addressed stamped envelope if you wish your negative returned when the quarterly contest is concluded.

So don't hesitate or delay; dust off that camera and go to work. You may be the winner.

Hurry, hurry, hurry!

---

## ACKNOWLEDGMENT

The picture for the front cover insert of the November issue of the Ohio State Engineer is credited to Mr. John Bingham, Columbus, Ohio.
